

enviroSCULPT by EGB

RULES:

- Up to 4 students per team
- Create a sculpture made from materials that would otherwise be going in recycling bins or landfill. No new materials allowed!
- The minimum size for the sculpture is 3'H x 3'W x 3'D
- You are responsible for transport and assembly of your sculpture. It must fit through a standard commercial door (approx. 3'-0" w x 6'-8" h). You will be required to bring your sculpture to the judging location and if it is not selected to move on to the Gala for the final round of judging you will be required to remove it from the judging location.
- Non-toxic adhesives are permitted.
- Spray paint and spray adhesives are not permitted.
- Your team will be able to work on and store your sculpture in a studio on campus.
- As you will guests in the studio space, please leave the space around your sculpture tidy and do not disrupt other student's sculptures. Failure to comply with this rule could lead to disqualification.
- Write a short statement about your piece that includes concept, materials used and any other environmental consideration that were made while creating your sculpture. Please include a photo with your write-up.
